

Swimming and Diving Team

Swim/Dive Season Fall 2017

To Whom It May Concern:

On behalf of the Lincoln High School Swim Team Booster Club, we are asking for your support of our upcoming season this Fall. The swim team at Lincoln is a 'no cut' sport which means any student who wishes to commit to the season is welcome to join. As part of the program, the swimmers are taught all four swim strokes (freestyle, breaststroke, butterfly and backstroke) participate in competitions and are introduced to a sport they can continue throughout their life.

During the regular season, we have swim meets competing against local high schools and travel to one invitational meet in Panama City to compete against other schools in the Panhandle. Our post season begins with the entire team attending FHSAA District Meet. Swimmers who qualify, will continue to compete at the FHSAA Regional Meet and potentially the State Meet. In the past these post-season meets have been held in Jacksonville, Panama City, Tallahassee, Pensacola, Gainesville and Orlando.

Every year the swim team incurs costs for pool rental fee, entry fees for meets, equipment and travel expenses. Due to budget restraints, Leon County is not able to fully fund the team's expenses. Although Lincoln is one of the largest area high schools, our swim team is comparatively small to the other local high schools and our funds are not very big. This year we will be trying to gain corporate sponsorships, car washes and others, as part of our fundraising efforts.

For a \$300 sponsorship fee, we will place your business name or logo on our team website and possibly a banner for display at all our swim meets.

We greatly appreciate any support you can provide to the Lincoln High School Swim/Dive Team, whether it be financially or in-kind such as food, sports drinks, equipment, etc.. All sponsor payment should be made payable to **Lincoln High School Swimming** and your logo Submitted by August 10th, 2017 to lincolnswimbooster@gmail.com and gollkc@msn.com .

Sincerely,

Lincoln Swimming & Diving
